work experience

novosafe: UX/UI Web Designer BERLIN, GERMANY since March 2025
B2B security platform for multi-location companies.

Designed the company's first website in Framer as well as the MVP of the security dashboard app, both originally conceived for private customers. After the pivot to B2B: ongoing redesign of the app experience in Figma for retail chains and energy plant operators.

arbo: UX/UI Web Designer BERLIN, GERMANY Feb 2024 – Dec 2024
AI-assisted material analysis.

Developed an AI-assisted tool for automatically extracting bills of materials (BOM) from construction plans, as well as step-by-step guides for complex workflows. Built a scalable design system with Tailwind CSS and Anima for consistent, faster implementation in React.

Nikita Ventures GmbH: Video Editor, Channel Manager & Graphic/Motion Designer 2017 – 2021
International YouTube network (wocomo), Berlin, Germany.

Responsible for video editing, channel management, and graphic/motion design for several of the network's channels, in addition to managing and protecting music copyrights (rights management). Built the wocomoMUSIC channel from scratch and reached over 100,000 subscribers within its first year.

other web projects

Run Up (2026): Bar-inventory PWA (React, Vite, Tailwind CSS), own product, designed and built as Product Designer & Developer, currently in active pilot with real bar runners

IPE systeme (2023): Sustainable water management (WordPress), accessible platform (developed to WCAG guidelines) for navigation and data comprehension

greta stefanel (2024): E-commerce (WordPress), checkout redesign with direct PayPal payment to increase conversion rate

dwa kolory (2024): E-commerce (Webflow), mobile-first strategy to optimize Instagram-driven traffic
